'THE FUTURE OF EDUCATION' EXHIBITION

THE EVENT

Panasonic warmly invites you to discover a host of innovative solutions ideal for a range of education settings at Panasonic's 'The Future Of Education' Exhibition. View first-hand how industry professionals may interact in more versatile, engaging ways with live product demonstrations and guided tours throughout the day.

In addition to the already expansive range of education focused products on display, Panasonic will also be proudly exhibiting a range of 4K solutions including the new 84" 4K LED Display, Toughpad 4K Tablet, 4K Broadcast Monitor and Lumix GH4. Be the first to experience the Panasonic 4K education solutions for the future.

This event is taking place in association with Broadcast and Video Technology Distributor Holdan and AV System Integrator Extron.

Consider the future of visual learning, interactive teaching, media production, communication technology, security systems and more for your education environment.
